ABOUT ME

I'm a Fronted Engineer with a growing interest in Power Platform, I bring a unique blend of expertise in web development and an evolving understanding of low-code app development. Proficient in HTML, CSS, and JavaScript.

I'm enthusiastic about creating intuitive user interfaces and leveraging the power platform to streamline business processes and drive digital innovation.

WORK EXPERIENCE

Frontend Engineer
Jun 2022 - Present

CodeAfrika Business Solutions Limited, Kenya

Collaborate with UI/UX designers to translate wireframes and mockups into interactive web applications.

Develop user-friendly and intuitive frontend interfaces that provide seamless navigation.

Utilize modern frontend technologies such as React to build dynamic and interactive web components.

Ensure cross-browser and cross-device compatibility by implementing responsive design principles and testing.

Integrate frontend components with backend APIs, enabling efficient data exchange and real-time updates.

Identify and address frontend bugs and performance issues through rigorous testing & debugging.

Stay up-to-date with the latest frontend trends, tools and best practices, and apply them to projects for efficiency.

Web Developer
May 2022 – Jun 2022

Machini Technologies Ltd, Kenya

Optimize the user experience by revamping and maintaining the available applications user interface.

Developing usable web application and enhancing the feel of the user interface for seamless experience.

Translate Figma design mockups into high-quality responsive code.

Frontend Engineer
Apr 2022 – May 2022

Terra Learning, Nigeria

Collaborate on team projects, utilizing the React library to craft contemporary and top-notch user interfaces.

Convert Figma design layout into top-notch, adaptable code.

Git collaboration with teams to work efficiently and effectively on shared projects, promoting transparency & accountability among team members.

Technical Support Engineer
Jan 2020 – Dec 2020

Women Fighting AIDS in Kenya (WOFAK), Kenya

Provide technical support to staff and volunteers for hardware, software and networking issues.

Diagnose and resolve technical problems, ranging from computer hardware and software glitches to network.

Respond to support requests via email, phone or in-person, offering clear instructions and guidance to resolve issues.

Assist in data management tasks such as data entry and data cleaning, ensuring data accuracy and integrity.

EDUCATION

Software Engineering
Mav 2022 – Nov 2022

Moringa School
Got full scholarship to study Software Engineering Course.

QCC/CUNNY Software Engineering
Mav 2022 – Jun 2022

QueensBorough Community College of the City University of New York (CUNNY)
Got full scholarship to study Software Engineering: Web Development Career Track Boot Camp.

Bachelor of Science in Information Technology
Mav 2018 – Apr 2022

Kabarak University
Awarded degree in BSc IT.
Member of Google Developer Student Clubs (GDSC).

Kenya Certificate of Secondary Education
Feb 2014 – Nov 2017

St. John's Nyamagwa Boys High School
The experience was cool after passing my exam in class eight(KCPE) where I got scholarship by the Carolina for Kibera (CFK) foundation to pay my secondary school fees, signed in the contract which lasted for only four years under certain conditions.

Kenya Certificate of Primary Education
Jan 2006 – Nov 2013

Soweto Academy
This where my journey of schooling began and did my best in the Kenya certificate of primary education (KCPE).
